

VXi UC ProSet™

With great sound and great looks, the ultra-durable VXi UC ProSet gives you the kind of performance and value you can only get from VXi.

The professional headset that's in a class by itself.

At VXi, we pride ourselves on the exceptional quality and performance of our headsets. Because of their incomparable sound quality, durability and comfort, along with their investment-saving interchangeability, we consider our products “best in class.” But the VXi UC ProSet is different. The difference is obvious before you even put it on. And when you experience its wideband audio and superior noise canceling, and feel how comfortable it is, you’ll understand that the VXi UC ProSet isn’t just “best in class,” it’s in a class by itself. Its UC-ready design will save you money, too. Whether you already have a Unified Communications system in place, or are weighing your options, the VXi UC ProSet is ready when you are. The best headset investment you can make, the VXi UC ProSet delivers the kind of performance and value you can only get from VXi.

- **Wideband audio** for clearer conversations and greater productivity.
- **Superior noise canceling** eliminates background noise and improves communication.
- **UC-ready** to fit right into your Unified Communications strategy.
- **Lightweight, attractive design** is easy and comfortable to wear, all day long.
- **High-quality durability** stands up to all-day, every-day use.
- **Interchangeability** with other headset brands lets you maximize your existing equipment investment.
- **Two models to choose from**, binaural (two speakers) and monaural (one speaker).

The best headset investment you can ever make.

The VXi UC ProSet delivers a host of real-world business benefits.

More productive conversations. Wideband audio and advanced noise canceling provide consistently clear, natural sound.

More focused users. Smart, ergonomic design is comfortable and stays put, so users spend time working, not constantly adjusting their headsets.

More efficient communications. Leading-edge technology maximizes Unified Communications potential.

Better all-around value. High quality materials and construction means it's built to last and last, even when used all day, every day.

Best possible return on your investment. Compatibility with VXi, Plantronics and GN Netcom®/Jabra equipment means you can keep on using your existing amplifiers and direct connect cords.

Choose the model that's right for you.

VXi UC ProSet 21P and 21P DC—For use with Plantronics amplifiers and direct connect cords.

VXi UC ProSet 21G—For use with GN Netcom®/Jabra amplifiers and direct connect cords.

Why Wideband Audio?

In simple terms, wideband audio means a higher quality of voice transmission. Wideband audio transmits a much fuller range of frequencies than traditional telephone transmissions, for a clearer, more natural sound. So wideband audio is easier to understand, which means fewer misunderstandings, shorter calls and happier customers. It also allows users to concentrate on what's being said, instead of straining to decipher unclear words or muffled voices. The ultimate benefits are increased productivity, less fatigue—and more satisfied customers.
